

## OBJECTIVES

- Discuss the updated NPUAP Staging Guidelines for Pressure Ulcer Classification System including the Kennedy Terminal Ulcer.
- Discuss avoidable versus unavoidable pressure ulcers.
- Identify the dressing appropriate for different wound categories.
- Discuss wound characteristics that determine selection of wound dressings.
- Describe the challenges of treating burns and how they differ from chronic wounds.
- Review the importance of offloading pressure in healing of pressure related wounds and the various options available.
- Identify the benefits of negative pressure therapy in wound healing.
- Discuss type of wounds that would benefit from negative pressure therapy.
- Describe the different methods of debridement and why debridement is important for wound healing to occur.
