HOSPITAL**

Dr. Anjaneyulu Alapati is board certified in Clinical Neurology, Clinical Neurophysiology and EMG. Dr. Theodros Mengesha is board eligible in Clinical Neurology and Clinical Neurophysiology.

Trust Huntsville Hospital Neurological Associates

- Evaluations of neurological disorders in adults: headaches and migraines, strokes, seizures, multiple sclerosis, Alzheimer's disease and Parkinson's disease.
- Services provided include EMG and nerve conduction studies in the clinic with results reported back to the referring physicians within two days for the evaluation and treatment of lumbar and cervical radiculopathy, carpal tunnel syndrome, neuropathy, myasthenia and muscle disorders.
- Inpatient diagnostic services include but are not limited to EEG, long-term EEG monitoring service and evoked potentials.
- Management of spasticity, dystonia, neck, head and back pain and other central nervous system disorders with Botox® treatments.
- Written consultation reports and plan of treatment within a seven-day period for referring physicians.

Scheduling appointments

Consultation with Dr. Alapati and Dr. Mengesha is by appointment only and initially made through the primary care physician's office. Please bring the following items to your appointment:

Current insurance card and picture identification
Method of payment accepted: cash, check, MasterCard and Visa
Current medications or a complete list of medicines with doses, including all over-the-counter medications, herbs and vitamins.

Our courtesy call reminder system will notify all patients two business days in advance of appointments. Please make sure we have current telephone numbers on file.

Canceling appointments

If it is necessary to cancel an appointment, please notify the clinic at least 24 hours in advance. This is an important courtesy to others waiting to schedule an appointment.

Telephone calls

All messages are given to the appropriate personnel as soon as possible, and every attempt is made to return telephone calls during regular work hours. There are times, however, when we cannot answer calls on the same day they are received. Please tell the receptionist if your call is urgent, if it must be returned the same day or if a response is needed by a particular time. So we can accurately reach you, please confirm your contact telephone numbers when you call.

Prescription refills

Refills should be requested during regular office visits. Your options for refills outside of office visits include:

Local pharmacies

You may call the pharmacy directly and request that a refill request be faxed to us.

Mail-order pharmacies

You may contact the mail-order pharmacy directly and request that a refill request be faxed to us.

Phone-ins

When calling the clinic, press "1" and leave your refill request on our telephone refill request line. Be prepared with the name, dosage and frequency of the required medication. Please allow 72 hours for refills to be completed.

Controlled Substances

Cannot be prescribed or refilled by phone.

Insurance

Most insurance policies are accepted including Medicare, Medicaid, Tricare and Blue Cross and Blue Shield.

Contact guidelines

Emergency

If you have an emergency, call 911 or go to the nearest emergency department for care. This clinic does not administer acute medical treatment.

Urgent problems

If you have an urgent concern, call us at 265-2695. After-hours calls will be transferred to the answering service. The answering service will page the physician on call. If your urgent concern becomes an emergency, go to the nearest emergency department for care or call 911.

After-hours questions

Please call us the next working day during business hours for general questions.

Lab or test results

Please call us during regular business hours. We are unable to retrieve results after clinic hours.

Clinic hours

Monday – Friday: 8:30 a.m. – 4:30 p.m.
